Write a summary of this book :

It is a simple book teaches the different sounds animals make, and explains how animals are sound to talk to each other. Through colorful pictures and easy words, children learn how a dog says 'woot', a cow says 'moo', and more.

In the book, which character do you like the most and why?

In the book, I like dolphins the most. It is because they can talk to each other in their own special language. They can also use sounds to hurt. Dolphins can whistle, click and squeak to communicate.

What did you learn from this book?

I learnt that different animals make different sounds not only to communicate with each other, but also they can use sounds to scare other animals and give warning to their own kinds.
